For Teachers

Fiddle with the photocopier to get these as a set of cards with front and back printed. Play this with the prepositions board game. You can either play this as a points game where the students get points for right answers or just play it simply by having the students go round the board and answer the questions.

When using these worksheets in your class be aware that they are the worksheets that I used in my class printed here as is and as such use vocabulary and grammar appropriate to the students that I was teaching at the time. If you plan to use this or any other sheet in your class make sure that you have pre-taught all the vocabulary necessary or preferably, use the ideas here and rewrite the worksheet for your specific students needs.

Most of all,

Enjoy.
