

What is the Date?

Month Day	1	2	3	4	5	6	7	8	9	10	11	12
1 st												
2 nd												
3 rd												
4 th												
5 th												

Think of a date. If it matches the dates on the teacher's sheet, you win those points. Good Luck!

For Teachers

For rules and variations of how to play this and other games check out the Games and Activities section of the website.

Fill in the gaps with points. For example

200points x 1

100points x 5

75points x 10

50points x 15

25points x 20

That leaves 9 squares with zero points.

The students get into groups and decide on dates on their sheet. You ask each group in turn “What date is it?” and the students answer, 1-12 being the months, January, February etc. Then you tell them how many points they managed to get with their guess.

When using these worksheets in your class be aware that they are the worksheets that I used in my class printed here as is and as such use vocabulary and grammar appropriate to the students that I was teaching at the time. If you plan to use this or any other sheet in your class make sure that you have pre-taught all the vocabulary necessary or preferably, use the ideas here and rewrite the worksheet for your specific students needs.

Most of all,

Enjoy.
