For Teachers

For rules and variations of how to play this and other games check out the Games and Activities section of the website.

Students can find this idea of asking extra questions quite challenging because it often requires a bit of creative thinking on their part. There are no rules to which questions you ask next, but as a way of getting them started, get them to think in Japanese what other questions they would ask in this situation. After some prompting and practice they can usually get the hang of it.

When using these worksheets in your class be aware that they are the worksheets that I used in my class printed here as is and as such use vocabulary and grammar appropriate to the students that I was teaching at the time. If you plan to use this or any other sheet in your class make sure that you have pre-taught all the vocabulary necessary or preferably, use the ideas here and rewrite the worksheet for your specific students needs.

Most of all,

Enjoy.
